

Dear Rose,

I wanted to put together a letter to express my deep appreciation for the many blessings you have provided to me over the years and hopefully to assist others in finding you. (My way of saving the world)

I was inspired to come up with this testimonial;

Four years ago, I was scheduled to go into the hospital to have surgery, a hysterectomy that would leave a scar from my pelvis to bellybutton. I was terrified as was my husband that the tumour inside me would prove to be malignant and it would mean cancer treatment after the removal of the growth. My husband was concerned about the surgery itself as I would have to be put under anaesthesia and might not come through.

Rose performed a prayer over the phone, a couple days before I had to go that for me, completely dissolved any anxiety, we surrounded that hospital with light energy and it really helped my husband feel less anxious about the procedure.

Needless to say, the surgery went off without a hitch and even more miraculously the tumour was found to be benign!

As if that was not enough, two days after the surgery, Rose picked me up at my home in Boston and I spent three days at her place in Hamilton where she provided me specific healing and respite from this painful, invasive procedure.(Anyone who has ever known Rose understands what being in her presence does for you, She makes you feel heard, loved, understood, and she pampers you like you are the most precious thing in the world to her... AND SHE IS GENUINE !!!)

She gave me a crystal healing in which I was instructed to lay on her portable table and she heated towels and placed crystals under me cradled my head and did a specific angel prayer. It was the most incredible experience I had ever had. Never before had I experienced being in a nurturing environment of unconditional healing love! I will never forget it and will never be able to express the full magnitude of gratitude I feel for this woman for providing me this magnificent experience. This session removed all of the emotional and physical pain I was holding onto.

For the balance of these days, we did meditations, watched chic flicks, laughed, cried, and healed. She did readings for me which offered insights into my own deeply entrenched psychic blocks and she guided

prayers to help me release these energies and bring about the changes that were necessary to help me to live my life more dynamically, take responsibility for my own healing and become more whole.

I was on top of the world when I left Rose's place. Since then, she has provided me guidance through phone conversations, readings, prayers and helped me to overcome some of my deepest fears that interfered with my life's fulfillment and dreams taking form.

It is my hope that anyone who needs ...might be given access to and experience this woman's truly extraordinary healing gifts, she is the real thing! She oozes love...
